DROUGHT ALERT NOTICE OF PROPOSED NEW WATER-USE RESTRICTIONS AND PUBLIC MEETING

California American Water has requested authorization from the California Public Utilities Commission (Commission) to enter into Stage 1 mandatory rationing (mandatory rationing). California American Water will hold a public meeting to discuss its request at the date, time, and location listed below. California American Water staff will discuss and explain the request to implement Schedule 14.1, mandatory rationing and receive public input.

Tuesday, October 7, at 6:30 p.m.
Mark West Elementary School
4600 Lavell Road
Santa Rosa, CA 95403

The public meeting is informal and affords customers the opportunity to ask questions and express their views. California American Water will have representatives there to explain the reasons for the proposed mandatory rationing and the appeal procedure.

Stage 1 mandatory rationing means the following rules will be implemented:

- Customers are obligated to fix leaks within 72 hours.
- No irrigating in a manner that causes run-off to hard surfaces.
- No washing of driveways, sidewalks or patios with a hose.
- No use of fountains or other water features that do not recirculate water.
- No washing vehicles without a hose nozzle.
- Use of potable water for certain construction purposes is prohibited.
- Service of water at restaurants is prohibited unless requested by patrons.

Installation of flow restrictor and warning, including explanation of penalty for subsequent offense. Additional charges for removal of flow restrictor device.
Offenses for separate water-use restrictions will each start at the warning stage.		
The water-use violation fine is in addition to the regular rate schedule charges.		

Customers may make a written request for a variance from any of the provisions to California American Water at 4787 Old Redwood Highway, Santa Rosa, CA 95403. Customers who are not satisfied with the response may appeal the variance request to the Commission.

The Commission staff will make a thorough investigation of the utility's request. Following the investigation, the Commission may grant the utility's request in whole or in part, or may deny it. It may also order the utility to charge penalties different from those shown in this notice. The proposed plan would go into effect upon approval of the filed advice letter to the Commission.

Section 454 of the California Public Utilities Code provides that no public utility shall raise any rate or so alter any classification, contract, or rule as a result of any rate increase except on a showing before the Commission and a finding of the Commission that such increase is justified. Customers may wish to call to the Commission's attention any problem covering water service, billing procedure or other factor pertaining to a reasonable service for the charge. Customers who would like to provide any other information, comments regarding this requested Stage 1 mandatory rationing, or would like more information, should write to the Commission at the following address:
