

PUBLIC NOTICE

Proposition 65 Public Notice

L-3 Communications Sonoma EO operates a facility located at 428 Aviation Blvd., Santa Rosa, CA. which uses and emits chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm. We do not believe that any person is exposed to these chemicals at levels constituting a health or safety risk. However we have not made a formal determination that actual exposure levels are below the Proposition 65 “no significant risk” levels for carcinogens or “no observable effect” level for chemicals known to cause reproductive harm, and we have not performed a risk analysis to determine the precise amount of exposure that any individual would receive over a 70 year period. Proposition 65 therefore obligates us to provide this warning to potentially effected individuals. Further information may be obtained by contacting L-3 Communications Sonoma EO at 707-568-3000
